
Your Brand

Brand Guidelines

A short, memorable statement of what you stand for.

[LOGO]

Overview

These are the brand guidelines for Your Brand. They define the visual and verbal system — colour, typography, spacing, logo usage, and voice — so that every touchpoint is consistent. Replace the placeholder values in `guide-build/brand_guide.py` with your own tokens and re-run to regenerate this document.

- **Colour** — brand, neutral, and semantic palette.
- **Typography** — families and the type scale.
- **Spacing & radius** — the layout rhythm.
- **Logo** — usage rules and clear space.
- **Voice & tone** — how the brand sounds.
- **Token appendix** — motion, elevation, dark mode, icons.

Logo

[LOGO PLACEHOLDER]

Add the mark to 00-ASSETS/LOGOS/ and reference it here

Usage rules

- Clear space: keep padding equal to the height of the logo mark on every side.
- Minimum size: 24 px tall on screen, 15 mm tall in print.
- Use the full-colour mark on light surfaces and the reversed (white) mark on dark or busy backgrounds.
- Do not stretch, rotate, recolour, add effects to, or crop the mark.
- Keep the mark clear of competing imagery and maintain strong contrast.
- Source files live in project-management/src/00-ASSETS/LOGOS/ (SVG source of truth plus raster exports).

Voice & Tone

Tagline

A short, memorable statement of what you stand for.

Personality

Clear • Confident • Human • Concise

Do

- Write in plain, active language.
- Lead with the benefit to the reader.
- Use British English spelling.
- Keep sentences short and scannable.

Don't

- Use jargon, buzzwords, or acronyms unexplained.
- Over-promise or lean on hype.
- Switch tone or register mid-journey.
- Pad sentences with filler words.
